## OUR VISION

As we enter into a new era of innovative and sustainable building practices, it is more important than ever to consider the environmental impact of our decisions. Showtech Fence dedicated to providing high-quality WPC fence that not only enhance the aesthetic appeal of your property, but also ensure long-lasting durability with minimal maintenance.

Showtech WPC fence represents a culmination of our commitment to excellence in design, functionality, and sustainability. WPC, or wood-plastic composite, is an incredibly versatile material that combines the best attributes of wood and plastic. Its unique composition makes it resistant to rot, mold, and insects, while also retaining the natural beauty of wood grain.

## WHY SHOWTECH FENCE

1. **Quality products:** Showtech WPC fence panels are made from high-quality wood-plastic composite, which is a combination of wood fibers and plastic. This material is durable, strong, and can withstand harsh weather conditions.
2. **Aesthetically pleasing design:** Showtech WPC fence panels come in a variety of colors and designs that will complement any style of property. Whether you're looking for a modern or rustic fence, we have options that will suit your needs.
3. **Easy to install:** Showtech WPC fence panels are easy to install, saving you time and money on installation costs. They require minimal maintenance, and you won't need to worry about painting or staining.
4. **Environmentally friendly:** Showtech WPC fence panels are made from recycled materials, so you can feel good about choosing an environmentally-friendly option for your property.
5. **Great customer service:** We pride ourselves on providing excellent customer service. We're here to help you choose the best fence for your needs, answer any questions you may have, and ensure that your installation goes smoothly.

## PRODUCTS FEATURES

- 15** 15-year limited residential and fade & stain warranties
-  High resistance to moisture and termites
-  No painting, no glue, low maintenance
-  Made of 90% recycled materials, let forestfuls of trees grow and grow
-  Easy to install and low labor cost

THE  
LOOK  
OF  
WOOD

WPC Fence ST1001

When people look at your decking, they'll see the fence before anything else. Which is why a picture-perfect deck means selecting fence that signifies your style-whether you're a modern minimalist or traditional to the core.

# WPC Fence ST1002

The style of mid-trellis is to use alternating synthetic wood boards across the back and front to give the fence the same views on both sides. On one side the design of mid-trellis is good for ventilation, on the other side this design can protect the privacy of neighbors.

## WPC Fence ST1003

This fence is a good combination of traditional iron fence and WPC fence. The carved part can be WPC boards or metal. The different patterns can provide more options to clients and give better visual effect to our fence products. Due to the half privacy design, this fence is mostly applied as decorative boundary fence, coffee shop partitions or leisure areas.
